•• Tip Jar

Please remember the restaurant staff need to clean the room after the meeting. They need us out of the room by 8:20pm. Thanks!

Thanks for your continuing support of TarMac!

Please consider dining at C&M. By increasing the number of diners, we ensure that meeting costs remain low.

Former Member News: We have heard from **Rachel** who's now living in North Carolina. She's looking for a used PowerBook or iBook. Contact her at TruePromise@mac.com

Free Computer: Peggy Litka has a Performa 550 with a nearly new extended Mac keyboard that she will give you if you purchase her **HP Laserjet 6MP**. Price negotiable Trade will be considered. 468.3047

Apple News:

iPod nano

In a special event in San Francisco, Apple CEO Steve Jobs bid adieu to the iPod mini and announced its replacement: the **iPod nano**, which holds 1,000 songs (or 25,000 photos) in a form factor thinner than a standard #2 pencil. It weighs 1.5 ounces, but features a color screen, clickwheel and 14 hours of battery life.

The **iPod nano** is available immediately in a 4GB model that costs US\$249 and a 2GB model priced at \$199. Both are available in white or black designs. The latter holds up to 500 songs or 12,500 pics.

iTunes 5 announced

Apple announced iTunes® 5, bringing new features and a refined look to the world's most popular digital music jukebox and online music store. iTunes 5 includes a new Search Bar to make it even easier for users to find what they're searching for; the ability to organize playlists into folders; Smart Shuffle, which lets the user change the "randomness" of shuffled songs; and the ability for Windows users to automatically sync contacts and calendars from Outlook onto their iPods.

MOTOROKR

Introducing **iTunes** for your mobile phone. With iTunes on your **Motorola ROKR**, you can listen to music on your mobile phone, wherever, whenever you want. Just \$250.00.
