Happy Valentine's Day!

🍏 Turning two partitions into one

by Christopher Breen ~ January 15, 2015 ~ *MacWorld* (thanks to Smitty for the tip!)

If you've partitioned your hard drive, here's an [easy and foolproof](http://www.macworld.com/article/2087881/turning-two-partitions-into-one.html#tk.nl_mwhelp) method for combining those partitions back into one, using your Disk Utility:

🍏 Happy 30th Birthday, Apple!

apple.com ~ February, 2014

Take this 30-year walk down memory lane, complete with video. On January 24, 1984, Apple introduced the Macintosh. And with it a promise that the power of technology, put in the hands of everyone, could change the world. On January 24, 2014, we sent 15 camera crews all over the world to show how that promise has become a reality. <https://www.apple.com/30-years/>

🍏 9 Things You're Doing Wrong With Your iPhone.

by Alexis Kleinman, February 6, 2014 ~ *The Huffington Post*

If you're like the author, your smartphone is your precious baby. Unfortunately, you probably don't treat it as well as you should. Kleinman mentions nine things you're probably doing wrong with your iPhone—things that can shorten battery life or make your phone work harder than it should. [For me, it was leaving mine plugged in all night.] *Entire article at:*

🍏 Would Apple's iAnywhere would turn iOS devices into computers?

by Lance Whitney, February 12, 2014 ~ cnet.com

The idea: a converged MacOS-iOS operating system that allows an iPhone or iPad to dock into a specially configured display to run as a computer.

TarMac - Tidewater Area Macintosh User Group. Officers and other board members:
President, Tom Davis; Vice President, Ray Kallman; Treasurer, Jan Cooke; Ambassador, Brian Fountain.
